Footnotes explained

1 = PreX (pre-existing waiting period) is defined as a condition for which medical advice was given or treatment was recommended by or received from a physician, or other health care provider acting within the scope of his or her license, within three months before the effective date of coverage. For this condition a company cannot exclude benefits for more than 3 months following the effective date. No waiting period will be applied for policies being replaced if the policy had been in effect for at least 3 months.

2 = These companies have discounts for spouse, electronic funds transfer and/or annual pay. You may call the phone numbers given to find out exactly what your discounts may be.
